# Overview

ClutchArt91 is an artist-led small business founded by a practicing artist with over 10 years of experience in digital and traditional art. The platform hosts curated, family-friendly art experiences designed to give artists a professional space to showcase their work, tell their stories, and connect directly with collectors and new audiences beyond social media.

ClutchArt91's long-term vision includes opening a brick-and-mortar gallery and creative learning space. Until then, the platform is intentionally building community online—bridging technology and traditional art while supporting artists of all ages and career stages through exhibitions, education, and partnerships.

## Objectives

To host family-friendly, bi-monthly virtual art shows that give artists a professional space to showcase work, tell the story behind it live, connect with new audiences, and support real art sales and brand opportunities—bridging tech and traditional art in an accessible online experience.
